SUMMARY

A recent graduate, an enthusiastic self motivated, efficient, reliable, responsible and hardworking person, is passionate to create a direct impact on patient's life. I am a team worker and adaptable to different situations. Besides that I am also respectful towards my seniors and other health professionals. My area of expertise mainly includes administer life support, first aid treatment, and other forms of prehospital emergency care to people who are injured and sick. Operate instrument such as bag valve resuscitators, ECG, external difibrillator for advanced life support application.
